

IPFax

Secure Faxing, Simplified

NUSO IPFax™ modernizes business faxing with a secure, cloud-based solution that eliminates hardware and manual processes. Users can send and receive faxes via email on any device, improving mobility and scalability while reducing costs, making it ideal for today's distributed, compliance-driven workplaces.

Today's Business Challenge

Businesses relying on traditional faxing face rising costs, outdated hardware, and security issues with incoming faxes lying in a shared machine. Limited mobility restricts remote access, while maintaining compliance adds complexity. These challenges slow communication, increase IT burden, and hinder scalability, especially for organizations managing high volumes of confidential documents.

IPFax Makes it Easy

NUSO IPFax eliminates legacy fax limitations with a cloud-based, email-to-fax solution that removes hardware dependencies and manual processes. It enables secure, compliant document exchange from any device, streamlines workflows, and scales effortlessly, reducing costs and IT overhead while supporting modern, distributed teams through partner-delivered services.

@ Email-to-Fax Simplicity

Send and receive faxes directly through email, eliminating the need for physical machines, phone lines, or complex user training.

☁ Cloud-Based Scalability

Easily scale fax usage up or down without hardware constraints, supporting growing businesses and fluctuating document volumes effortlessly.

🛡️ Secure & Compliant Transmission

Protect sensitive information with secure delivery and compliance-ready infrastructure, ideal for regulated industries like healthcare, finance, and legal.

📱 Device & Location Flexibility

Access fax capabilities from any device, enabling remote teams to send and receive documents anytime, anywhere without disruption.

Ideal For

- Legal Document Handling
- Government & Public Sector
- Education Administration
- Distributed Workforce Enablement
- Financial Services Compliance - Banking & Insurance
- Retail Vendor Communications - Orders & Invoices
